

WEATHER REPORT & FORECAST

- Cloud cover forecast.

SATELLITE-BASED GLANCE INTO THIS MORNING,
FRIDAY 06 DECEMBER 2024

The country experienced no rainfall yesterday, attributed to suppressed middle-level atmospheric circulation. As a result, conditions remained predominantly cloudless and hot. Similar weather is expected today, with clear skies prevailing across most regions.

WEATHER FORECAST: SATURDAY 07 DECEMBER 2024

Morning: Mild and cloudless conditions countrywide are expected.

Afternoon: All areas should be sunny and very hot except for Matabeleland North where some partly cloudy periods are expected.

Evening: Mostly clear skies and mild conditions.

Impacts:

- Secure loose items outdoors to prevent wind damage.
- Take precautions during thunderstorms, especially in open areas.

WEATHER FORECAST: OUTLOOK

Morning: Anticipate brief cloudy periods and cool in Masvingo and Matabeleland South. **Afternoon:** All areas are expected to remain cloudless, except for Masvingo and Matabeleland South, where partly cloudy conditions may develop. Daytime temperatures will be hot across the country. **Evening:** Mostly clear skies and mild conditions.
